

TrashTag

Team Iron

Scott Zumwalt, Sara Perez, Emily Rick,
Luca Brooks, Adam Daif, Teddy Kovacs
Mentors: Mustafa Ibrahim, Peter Langlands III

Problem

Independent organizations and local governments struggle to efficiently locate and remove litter, and volunteers can be left unprepared without a live reporting system.

Solution

TrashTag aims to aid the litter and waste cleanup process with a mobile application where users can photograph and report piles of waste, give their exact locations, and connect with cleanup groups.

Problem Characteristics

- Resources:** Organizations struggle to track illegal dumping
- Communication:** Users lack tools for organizing cleanup efforts
- Convenience:** Users want to report trash when they see it
- Complexity:** Users want their reports to be heard

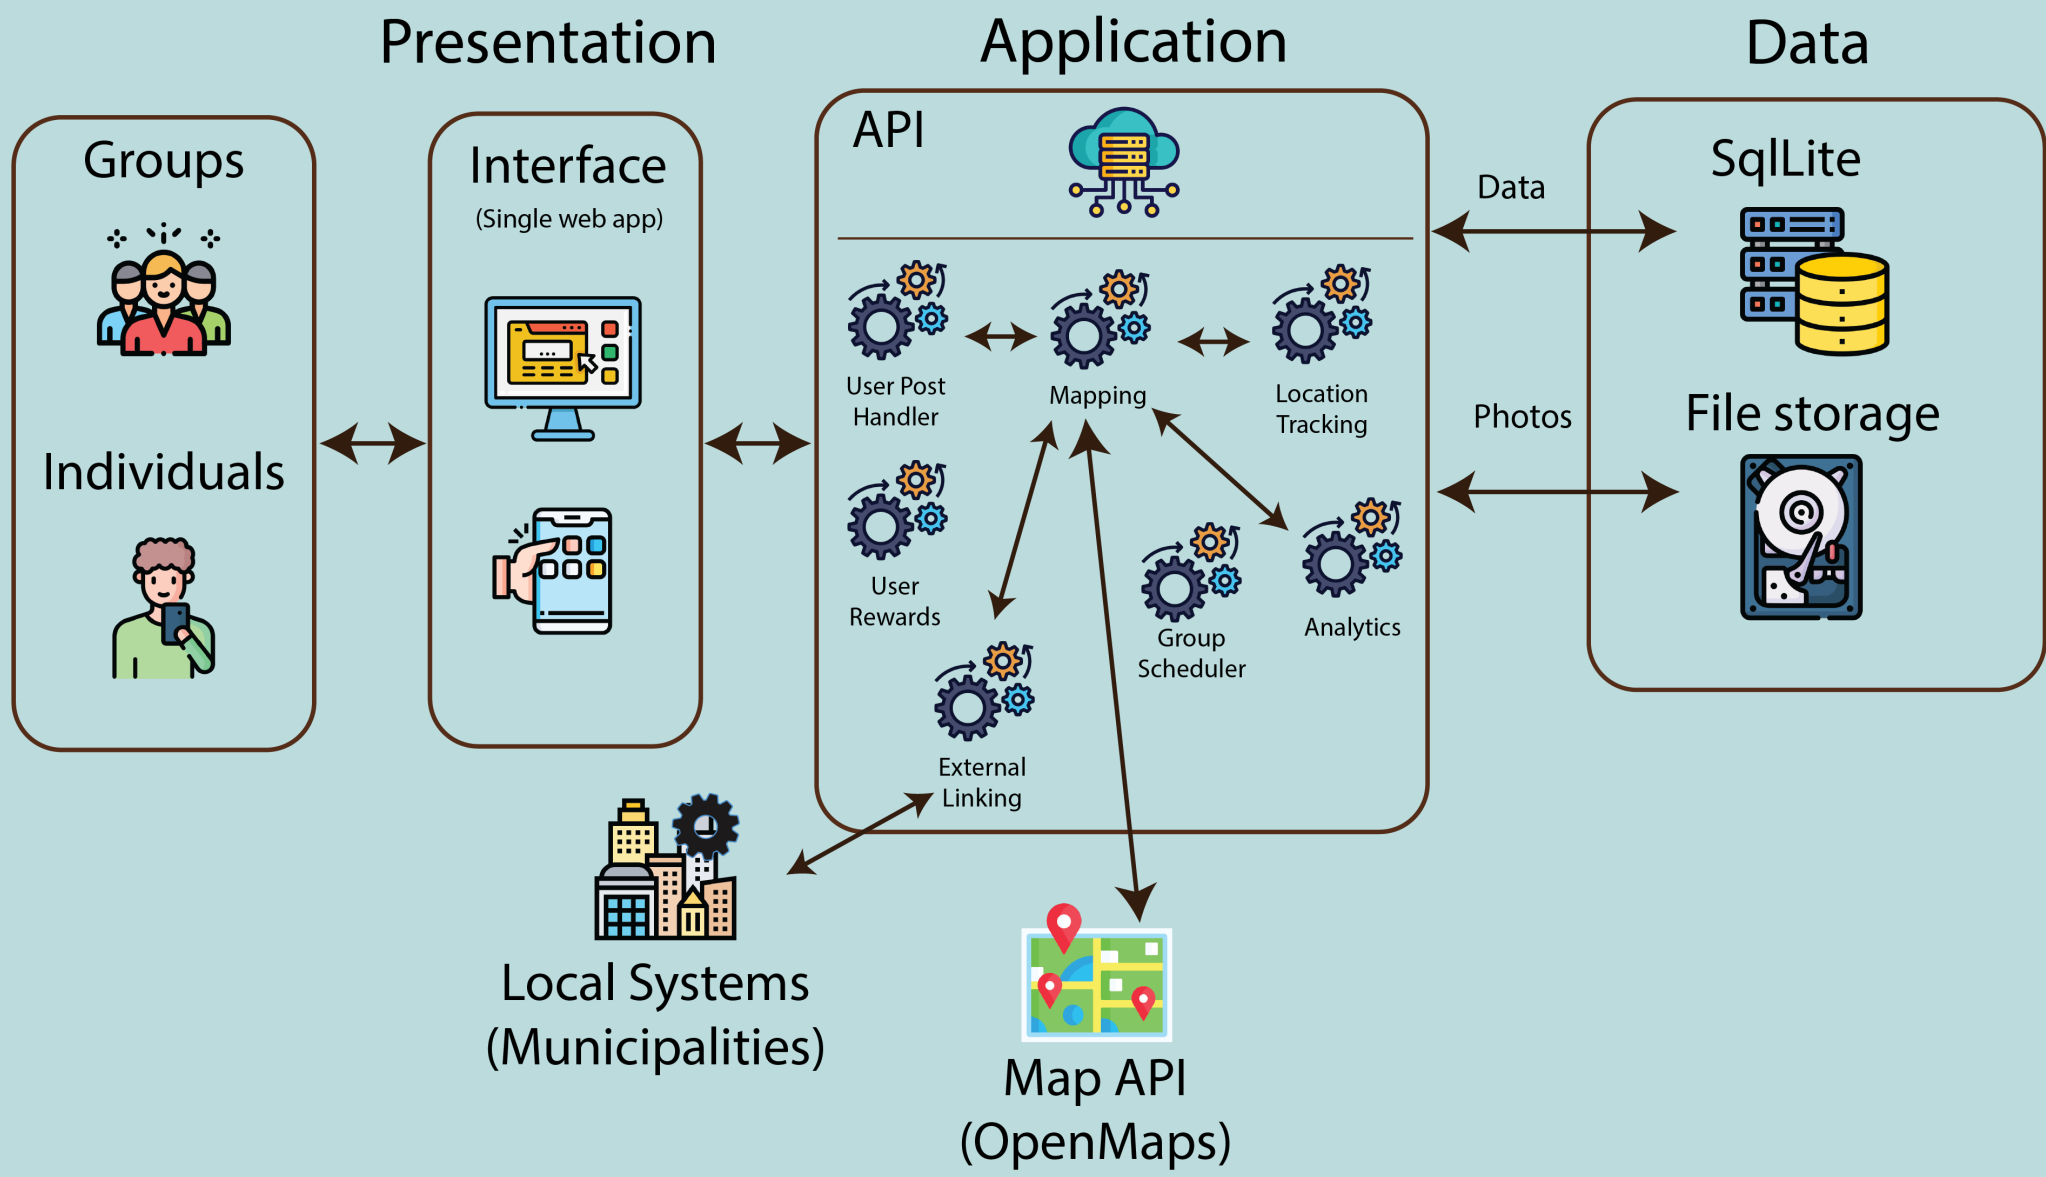

Solution Characteristics

- Live Reporting and Mapping:** Users snap a picture of the litter and upload it to the map
- Litter Report System:** Users see an image of the litter
- Leaderboard System:** Users get points for using with TrashTag
- Close the Loop:** Users verify that litter near them is still there

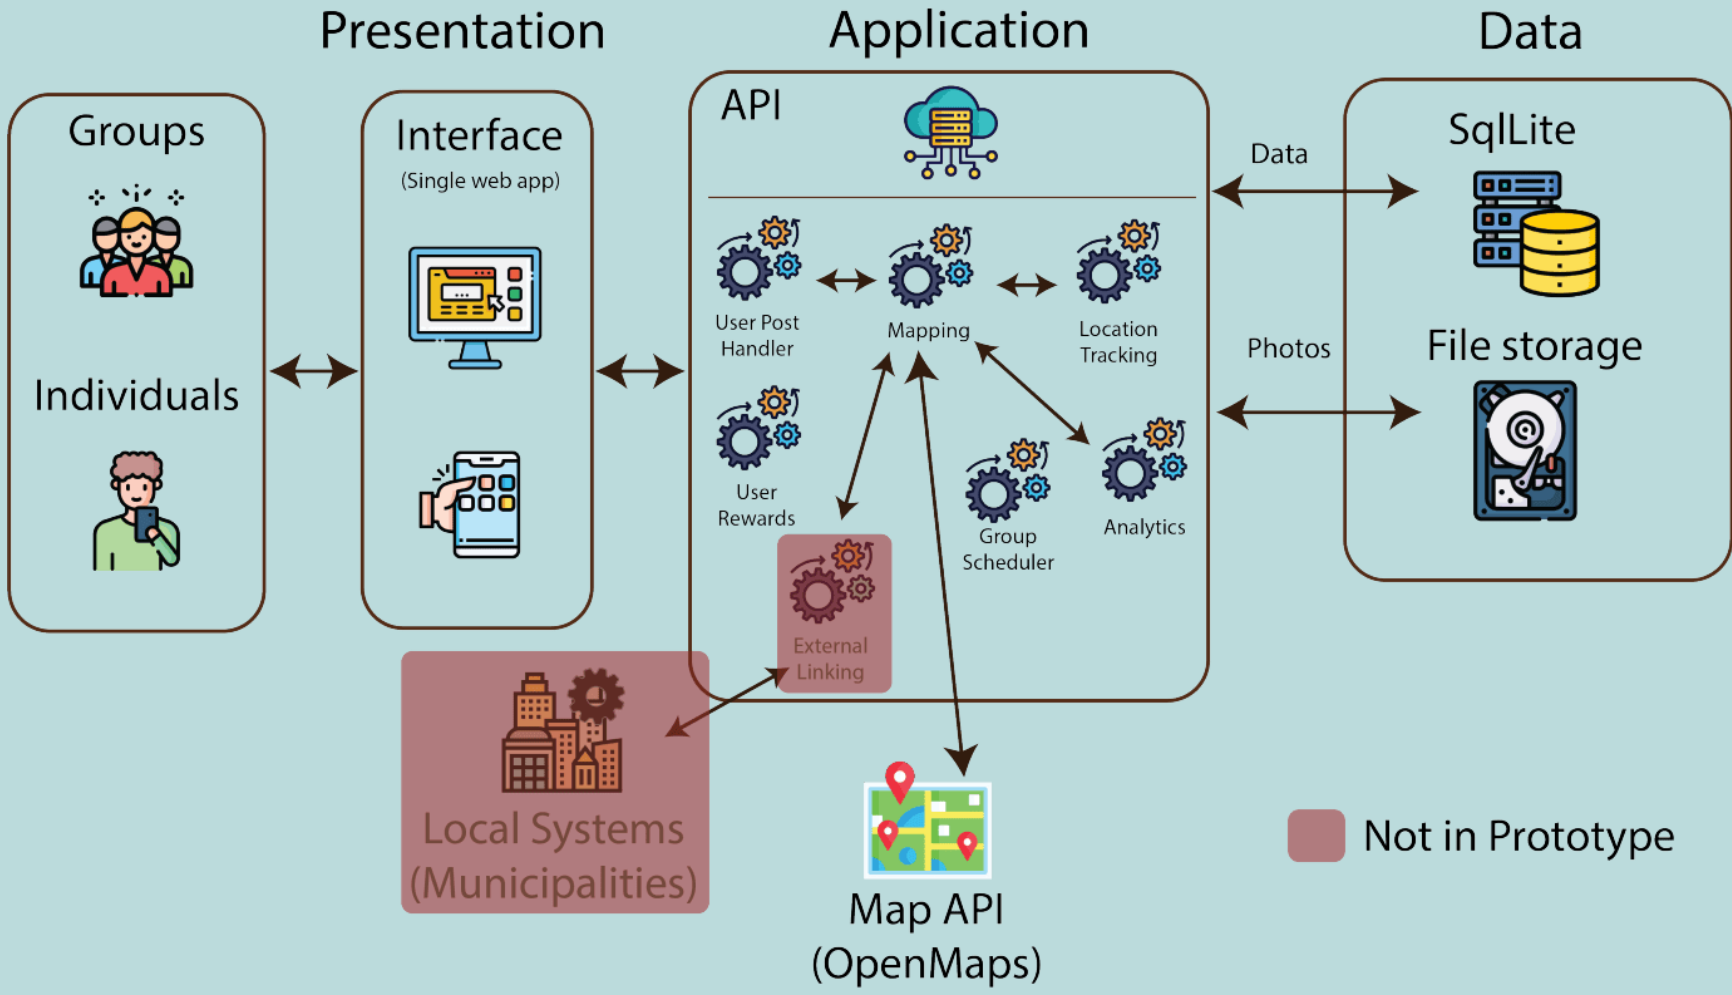

Innovative Features vs. Competition

Features	TrashTag	Clean Something For Nothing	Pirika	Litterati	City 311 App
Report Trash	✓	✓	✓		✓

RWP MFCD

Prototype MFCD

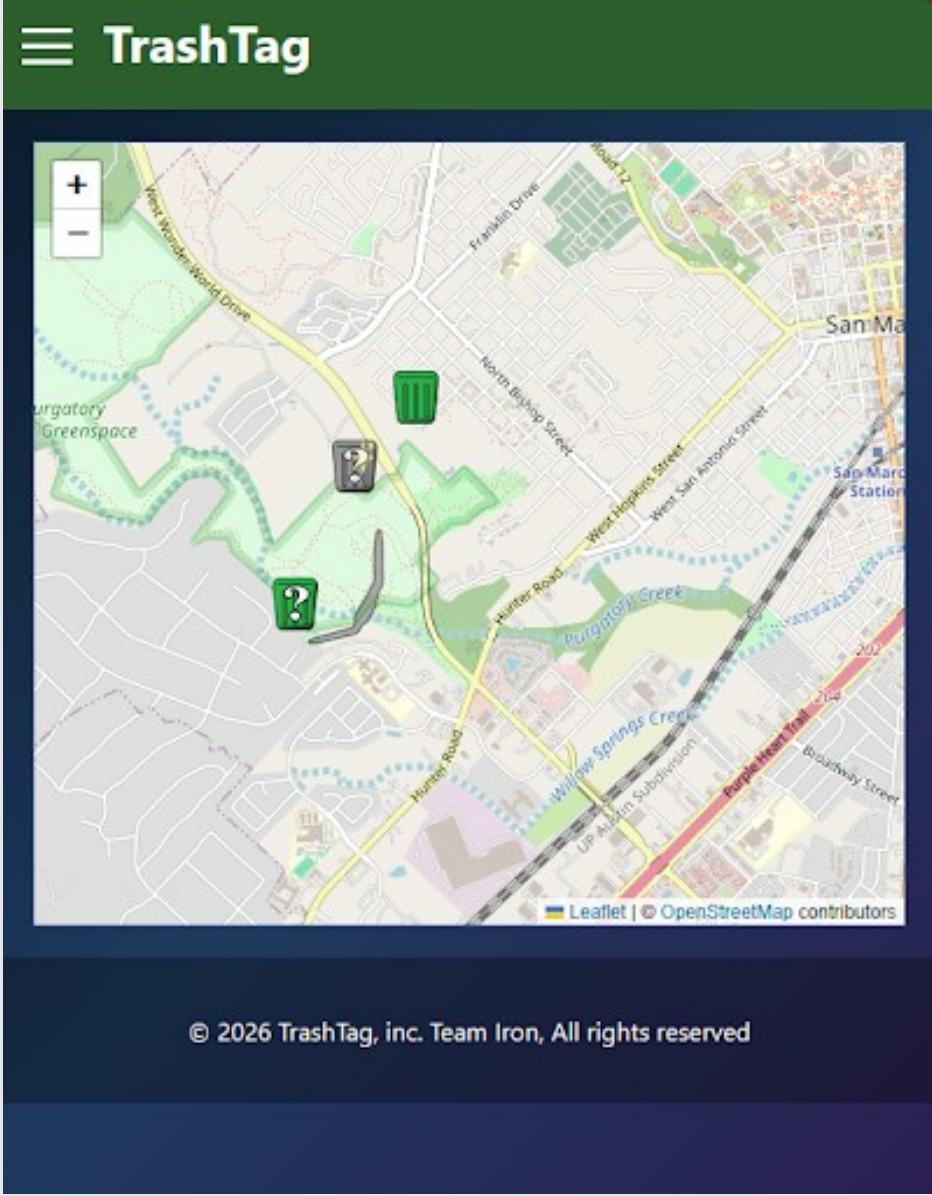

Prototype Features

- Litter Reporting:** Report Litter Location, Upload Photos, Mark Trash Size, Request Cleanup Verification Status
- Mapping:** View Litter Density Map, Filter by Status/Location
- Client Authorization:** Create New Account, Login, Edit/View Profile
- Cleanup Tracking:** Update/Monitor Cleanup Status, Upload Proof
- Verification:** Verify Cleanup Status/Completion
- Community Impact:** Gamification, Rewards, Top Contributors

UI/UX Screens

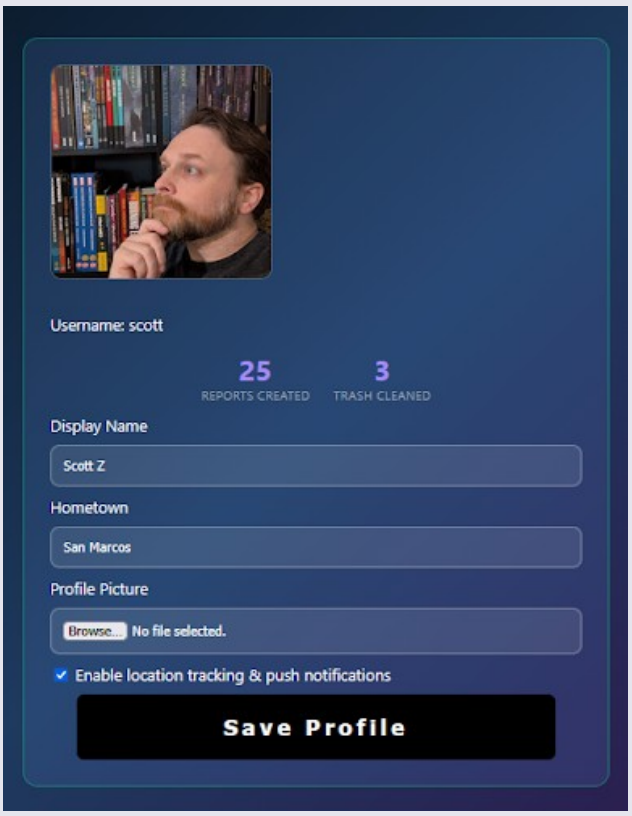

Map

- View litter location and its cleanup status with TrashTag's interactive map feature
- Filter viewable litter by status and location
- View images and litter statistics by clicking on litter icons
- Click on icons to access the cleanup report options

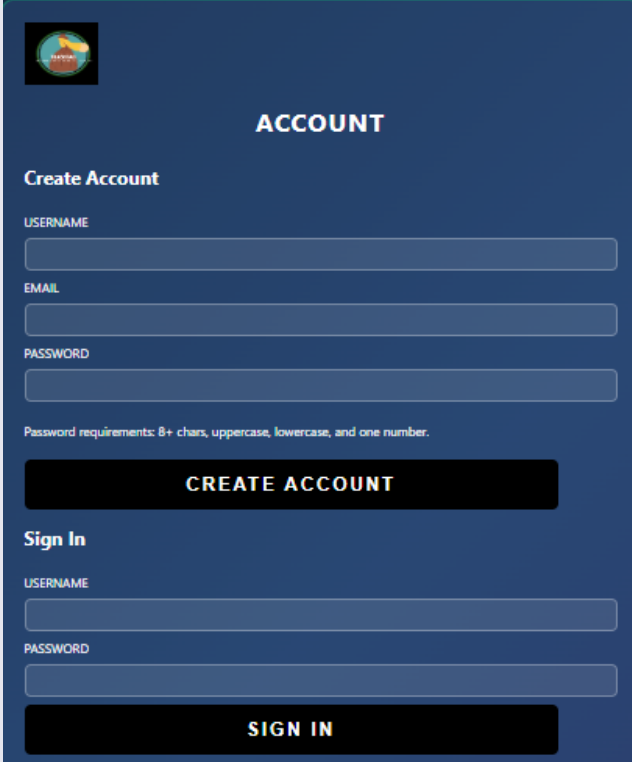

View Profile

- View/Edit your profile
- Upload an profile image
- Pick your username

Create New Account And Sign In

Make a brand new account and sign in to create a profile and start reporting litter near you and start competing on the leaderboard

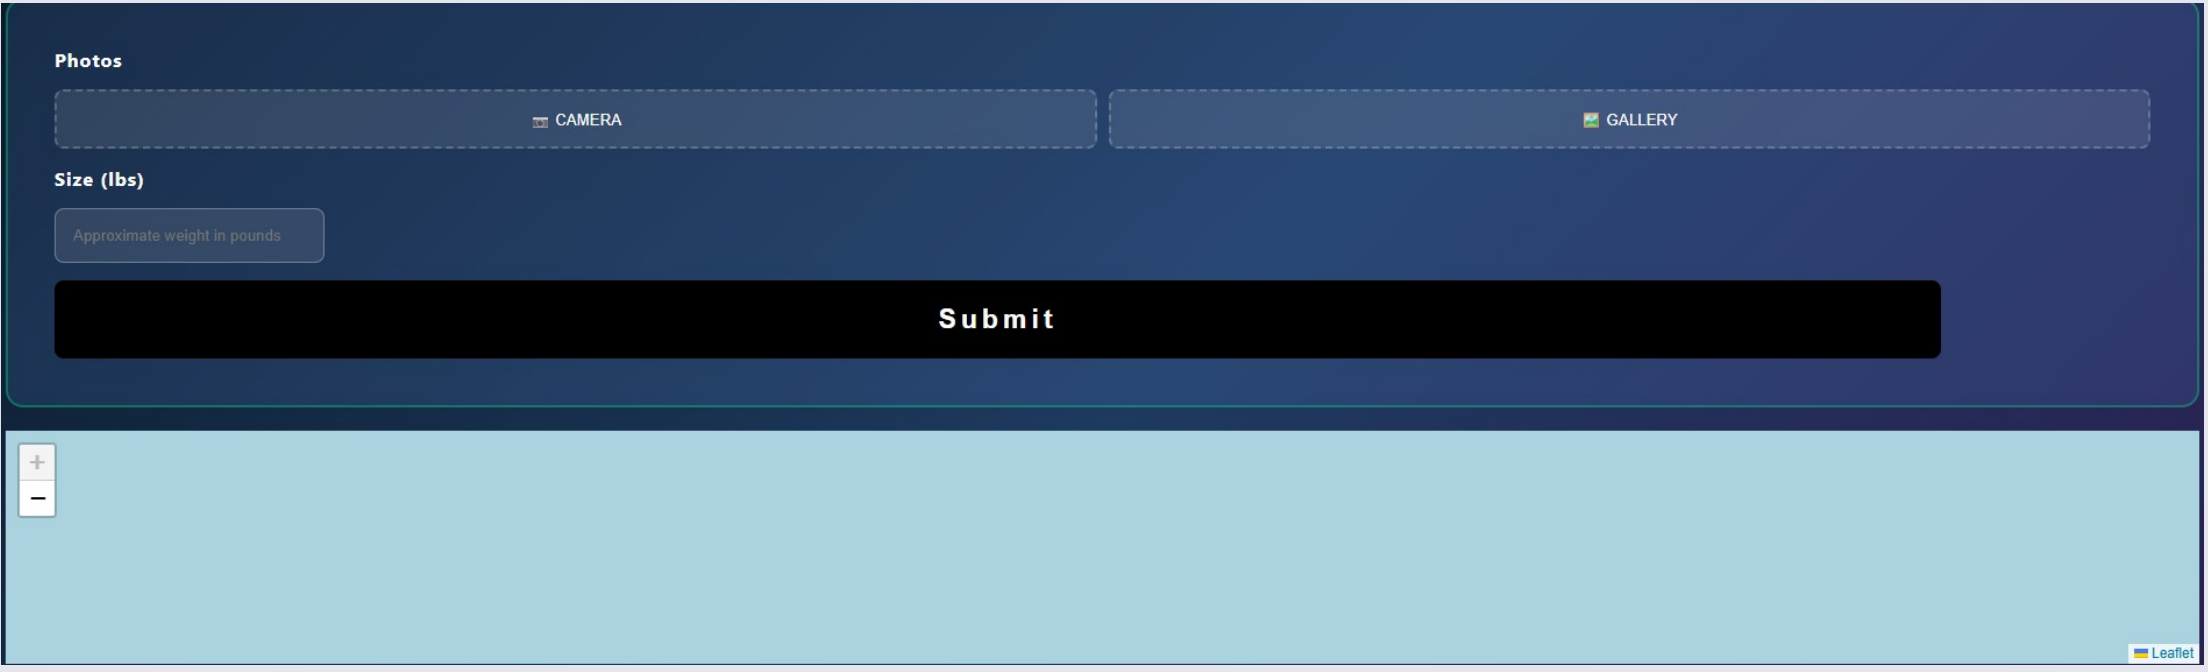

Leaderboard

Get rewarded with points by interacting with TrashTag

LEADERBOARD		
RANK	USERNAME	POINTS
#1	Luffy	1511 POINTS
#2	Zoro	1200 POINTS
#3	Nami	1123 POINTS
#4	Sara	1099 POINTS
#5	Usopp	998 POINTS
#6	Sanji	856 POINTS
#7	Chopper	746 POINTS
#8	Robin	623 POINTS
#9	Franky	548 POINTS
#10	Brook	426 POINTS
#11	Blackbeard	104 POINTS
#12	Whitebeard	9 POINTS

Report Litter

- Select litter location on the map
- Upload an image of the litter
- Report its weight in pounds
